SUMMARY

My name is Nicolaos Tzakis, commonly known as Nicolas. I am a Junior Software Engineer with a background in computer networking and a growing interest in full-stack development. I am eager to learn and contribute to real-world project while continuously improving my technical and teamwork skills.

EDUCATION

Undergraduate Final Year Bachelor of Informatics   **Sept 2021 -**
Currently Mulia University   **GPA: 3.57/4.00**

Relevant coursework: Algorithm and Programming. Computer Networks. Informatics Logic. Database System. Database Management System. Data Structures. Web Programming. Computer Architecture and Organization, Software Engineering, Operating System, Cloud Computing, Statistics and Probability, Linear Algebra and Matrix, Numerical Method, Computer Hardware, Computer Graphics.

Computer Network Engineering   **Jul 2018 - May 2021**
SMKN 2 Balikpapan

Relevant coursework: Basic Computer and Networking, Basic Programming, System Administration, Network Infrastructure Administration.

EXPERIENCE

IT STAFF   **Balikpapan, Indonesia (Onsite)**
PT GALAKSI MAS GROUP   **Jul 2025 – Nov 2025**

- Assisted users in resolving hardware-related issues, including printers and computers.
- Acted as the PIC (Person in Charge) for third-party applications, ensuring smooth operation and issue handling.
- Managed network-related problems both onsite and remotely to ensure stable connectivity.
- Responsible for monitoring and maintaining servers, including performing troubleshooting and corrective maintenance when issues arise.

HELPER TECHNICIAN   **Balikpapan, Indonesia (Onsite)**
PT COMTELINDO   **Mar 2025 – Jun 2025**

- Installed solar power systems (PLTS) as a power source for starlink in remote vilages.
- Replaced networking hardware and traced cable paths for connectivity assurance.
- Conducted preventive maintenance at corporate client sites, including documentation of active networking and hardware infrastructure.

CAMPUS PROJECT : Journey Awaits   **Balikpapan,Indonesia**
Mulia Unviersity   **May 2023 – Aug 2023**

- Installation and configuration of operating systems and supporting application
- Hardware maintenance, including cleaning and component replacement
- Implementing a local area network (LAN) for computer laboratories
- Configuring IP addresses, subnetting, and installing devices such as switches and routers.
- Troubleshooting network connections to ensure optimal performance

IT SUPPORT   **Balikpapan, Indonesia (Onsite)**
SMK NEGERI 2 BALIKPAPAN   **Jul 2019 – Jan 2021**

- Installation and configuration of operating systems and supporting application
- Hardware maintenance, including cleaning and component replacement
- Implementing a local area network (LAN) for computer laboratories
- Configuring IP addresses, subnetting, and installing devices such as switches and routers.
- Troubleshooting network connections to ensure optimal performance

PROJECTS

- Github: https://github.com/Takimoru

TOOLS

- Programming Languages: JavaScript, PHP, Go
- Frameworks: Laravel (PHP), React.js (JavaScript)
- Databases: MySQL,
- Cloud Tools: Mikrotik, Docker, Docker Compose, Nginx, Apache
